

Problem: Flight Search ; Experience: 0~2

Write a RESTFUL service to find flights between given cities and order them by price in ascending order(cheapest first)

url
/search/PNQ/BOM

Flightdata.csv
Airline,origin, destination, price
Air India, BOM, PNQ, 2000
Air India, PNQ, BOM, 2200
Indigo, PNQ, BOM, 2000
Air India, PNQ, Delhi, 5000
Indigo, PNQ, Delhi, 4500

Also handle no flights found scenario

Evaluation would be based on code quality, structure, readability and test coverage.
